

## Land Manager – Development

### Urgent Requirement

**Location: London**

### The Role:

Have you got experience of seeking out new development opportunities in the construction industry? Do you want to work for a market leading property developer? Are you keen to further your career and work in a diverse role overseeing land acquisitions and project management? Our client is looking for a tenacious land buyer to source new opportunities across Residential, Commercial and Regeneration schemes across London and the South East.

The role will be highly autonomous, involve networking at a variety of levels and involve some aspects of project management

### Key responsibilities:

- Maintain and develop contacts with Land Agents, JV Partners, Development Partners, Local Planning Authorities and other relevant market contacts
- Work with the Land Director to secure strategies for acquiring sites and viable schemes
- Ensure good working relationships with Developers, Land Agents, Local Authorities, Development Partners and other key contacts

### Experience Required:

The successful candidate must have a proven track record in project management or land acquisition within the construction industry (can be private or public sector). Ideally you will have a surveying or project management qualification or a degree in a related subject.

You will play a key role in the future success of the organisation and act as a driving force to hunt and seek out new opportunities.

If you are interested in hearing more about this exciting opportunity, please send in your CV by applying today.
